- Ensure that the recording of specified incidents is carried out in accordance with RIDDOR (Reporting of Injuries, Diseases, and Dangerous Occurrences Regulations 2013), by ensuring that the Accident and Incident Reporting Policy and Procedure is followed and that all accidents are recorded, using the form attached to that policy.
- Ensure that the Local Authority is informed of any accidents or incidents involving Service Users that meet their local reporting requirements.
- Ensure that the CQC is notified in line with statutory reporting requirements.

## The Compliance Manager

The Compliance Manager will support the Registered Manager in providing leadership that promotes responsible attitudes towards health and safety and will,

Ensure that each new employee is given induction training, including the precautions and procedures

appropriate to their specific jobs.

All new members of staff will be shown the location of first aid boxes, fire exits, and firefighting equipment

Ensure that all staff are aware of the Health and Safety Policy and Procedure, and have access to the documents in our office.

Keep up to date with health and safety matters applicable to the operations of H&A Sharma Limited t/a Bluestar Care & Support Ltd

Investigate all accidents to prevent future or further re-occurrences. Ensure that good housekeeping standards are applied

Periodically review all new and existing equipment regarding mechanical and operational safety and, in particular, the location of all equipment, bearing in mind all health and safety factors. This includes equipment within the Service User's home

Carry out regular safety checks and audits

Accidents must be reported immediately to the Registered Manager. Also, regard will be paid to the following in particular,

The supply, use, and maintenance of equipment and its usage to ensure that it is safe and does not endanger health

The provision of safety arrangements for the handling, storage, and movement of materials, equipment, and substances

Supplying sufficient information, instructions, training, and supervision to enable staff to avoid hazards and contribute positively to their health and safety at work

Inspecting regularly, equipment such as lighting, passageways, fire alarms, fire escapes, fire extinguishers, first aid facilities, and work practices, to ensure their efficiency and maintenance

Ensuring that staff and visitors are aware of emergency procedures and that Personal Emergency Evacuation Plans (PEEPs), if required, are written and practiced

## **Team and Line Managers**

Team and Line Managers will implement routine health and safety management and risk control systems through a process of risk assessment specific to domiciliary care providers and provide safe and quality-driven working practices within the services. They will also,

- Maintain up to date emergency and contingency procedures for safe working within the community
- Keep health and safety monitoring recording and routine reporting systems up to date
- Carry out risk assessments and put in suitable risk control measures for the safety of each service user and to assure a safe working environment for employees and staff.
- Identify and report health safety risk arising from risk assessments, accident and injuries reports, routine inspection checks, and audits on the service.
- Provide information, instruction, supervision and in house supportive learning and development for employees and volunteers working in domiciliary care services

- Promote a positive health and safety culture, safe systems of working a good practice standards
- Coordinate and cooperate with all other relevant stakeholders as required to promote good, safe, and effective team working within and externally to

Employees:

- Must comply with the health and safety management, risk control systems, and standards to ensure safe working practices
- Are required to cooperate with preventative and protective measures to safeguard and promote health and safety
- Must participate in induction, general and specific work activity health and safety learning and development programs
- Need to take reasonable care to promote and ensure their own and others health and safety
- Report any health and safety concerns to their line manager

## **Employees and Workers**

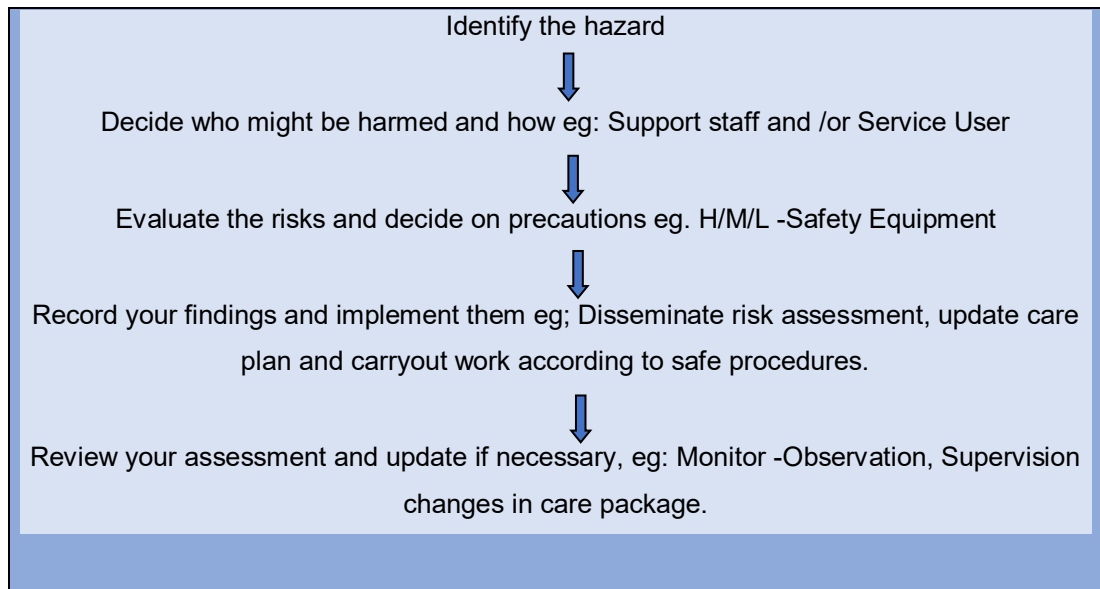

All Bluestar Care & Support Ltd Employees and Workers have duties under the Health and Safety at Work etc. Act 1974 and will:

- Do everything they can to prevent injury to themselves, fellow staff, and others affected by their actions or omissions at work
- Follow company procedures, in particular, to report any incidents which have or may have led to injury or damage. Neglecting this responsibility can lead to prosecution by the Health and Safety Executive.
- Inform their line manager of any work situation where there is a serious and/or immediate danger to staff and identify any shortcomings in the health and safety arrangements for protecting staff and others.
- Report conflict between the demands of safety and their job and will raise the matter immediately with their supervisor.
- Check that work areas and equipment are safe before use and any work equipment according to the training and instructions provided, bringing to the notice of managers any defective equipment which may cause an incident.
- Dress in line with the Appearance Policy and Procedure and appropriately for their working environment and their work activities.
- Follow the Lone Working Policy and report any personal safety concerns to Bluestar Care & Support Ltd
- Ensure that they understand the system at H&A Sharma Limited t/a Bluestar Care & Support Ltd for reporting incidents, accidents, and other health and safety risks and that they use these systems when necessary and to ensure that they read, understand, and follow all appropriate health and safety policies, procedures, and other documentation at H&A Sharma Limited t/a Bluestar Care & Support Ltd, and attend scheduled training sessions

## Risk and Hazard Management

The Management of Health and Safety at Work Regulations (1999) requires suitable and sufficient risk assessments to be carried out by competent staff. Bluestar Care & Support Ltd will incorporate the recommended five-step process to risk assessment (Health & Safety: Five Steps to Risk Assessment) and we aim to carry out Risk assessments accordingly. That is, proactively for a specific activity or a concern and reactively for an accident or incident.

Bluestar Care & Support Ltd Generic Risk Assessment templates are provided for hazards associated with general work activities, locations, equipment, and processes to determine the risk level for severity and likelihood outcome. Control measures identified are put into an action plan and reviewed that includes:

- Specific or individualized Risk Assessments are provided for recording some risk to individuals, complex tasks, and policy areas, for example, fire, hazardous substances, manual handling, display screen equipment, lone working, bed rails, use of equipment, occupational health, pregnancy, and young persons.
- Information and practical training are provided to staff on risk assessment
- Outcomes and actions from risk assessment are reviewed and reported to line managers
- Employees and volunteers are required to report any workplace hazard or concerns to their line manager or the health and safety teams.

## Fire Safety and Emergency Procedures

Bluestar Care & Support Ltd's service delivery is within the home of individual service users or in community spaces therefore we consider the specific risks associated with the vulnerable service user and the nature and purpose of service activities.

## Reporting Accidents and Incidents

All employees are required to immediately report to the Registered Manager and or On-Call Manager all accidents, injuries, and ill health associated with work activities and as a required legal duty to notify the Health

and Safety Executive as guided in the Reporting of Injuries, Diseases, and Dangerous Occurrences Regulations 2013 (RIDDOR).

RIDDOR requires employers and others to report deaths, certain types of injury, some occupational diseases and dangerous occurrences that arise out of or in connection with work. Generally, these covers incidents where the work activities and equipment contributed in some way to circumstances of the accident.

Also a record of service users fall will be completed and kept secure with personal plans and risk assessment records; fall are monitored and reported after every Call or visit as part of accident reporting procedures.

Accident investigation procedures are used to identify the causes of accidents and incidents and the implementation of suitable preventative and control measures. Significant events require formal investigation and reporting accordingly.

Bluestar Care & Support Ltd's investigation of incidents and accidents will be focused on identifying the root causes to enable both local and organisational learning as part of the quality management process for continuous service improvement.

### **First Aid Training and Provision**

There will be designated first aiders in our office premises and all care staff will be trained in Basic First Aid. A First Aid box is located in a secure and accessible place in our Office premises. This is detailed in our First Aid Risk Assessment and reviewed regularly.
